TRAVEL HEADLINES
- New 200 space bike parking facility was opened at Gipsy Lane alongside cyclist showers
- Safe walking paths were introduced at the Ferndale Campus, Swindon
- A new bike shelter was opened at Wheatley
- Secure bike parking facilities were installed at Clive Booth Student Village and Warneford Hall
- The total number of car parking spaces have been reduced in line with planning requirements from 1809 the previous year to 1606
- Over 9000 students received BROOKESbus keys as part of their halls or tuition fees packages again this year

WALKING AND CYCLING SURVEY
Thank you to all students and staff that completed the Walking and Cycling survey in December. The results are being used to make improvements and expand the bike doctor service and to support projects which will increase the provision of secure bike parking.

Feedback on the survey is available on this link.

THE CAR CLUB
The launch of the Car Club saw the electric car feature on the big screens at Times Square. Car Club vehicles are available at all Oxford based sites, Clive Booth Student Village, Crescent Hall and Warneford Hall.

WALKING WORKSHOP ‘BEYOND INSPIRATIONAL’
The first ever Walking Workshop experience for tourism academics from around the world took place in Nepal at the beginning of May. The conference was organised by Roberto Daniele from the Oxford School of Hospitality Management and the Tourism Education Futures Initiative (TEFI), working with the Moving Mountains Trust.

Designed to look at the role social enterprise can play in sustainable tourism, the event was an entirely new way for tourism and hospitality educators to develop and become change-makers in their discipline and transform the world for the better through tourism education.
