Specific Regulations

B14. Alternative assessment arrangements for Disabled Students

Examination and other arrangements for students with disabilities or injury

Applicants suffering from any disability that may affect their mobility, safety or capacity to work or be assessed in the normal way should draw this to the attention of the University at the time of application.

Suitable arrangements will normally be discussed with the Student Services Centre before admission.

Special arrangements for assessment must be sought by the student on every occasion on which they are required. Students must ask the Head of Student Services to recommend special examination arrangements to the person(s) responsible for the administration of the examination in accordance with the Regulations Governing Special Assessment Arrangements for Students with Disability or Injury. Copies of these Regulations are available from the Academic Registrar, the Students' Union and Student Services.
