EXHIBITION AND SESE CAFE

The exhibition welcomes the 12 projects that are key to the implementation of the Strategy for Enhancing the Student Experience. Each of the projects will be hosting a table and you are invited to join the project sponsors over some refreshments to discuss their work, hence we are calling this the SESE cafe.

These projects are: PETAL | The new VLE | University wide modular feedback system APTT | Graduate Attributes | Grading and Assessment | Student Engagement with the Institution | Student led initiatives | Accreditation of work related learning | Enhancing Brookes in Associate College Partnerships | Student Life | Knowing me, knowing you

In addition, you can explore Blackwells new epack, find out about the InSTEPP project and relax in the reading corner with the latest learning and teaching publications from Brookes' staff.

Upstairs in SWUC for most of the day, there will be short demonstrations of tools to enhance your use of Moodle and other associated learning technologies.

All in all plenty to see, do and talk about, with a delicious lunch - so come along and join us.
