

# *Academic Skills Audit for postgraduate students*

**Centre for  
Academic  
Development**  
*Enhancing student success*

## ***What is a skills audit and why do I need to complete one?***

As a postgraduate student, you will be managing your studies more independently and developing your skills to become a more independent researcher. This Academic Skills Audit is designed to help you identify your academic skills needs in your first semester at Brookes. You should try to complete it and share it with your Academic Advisor or supervisor before your first appointment. You can then talk through it together and identify areas for you to focus on.

This document is yours to keep and you will not be assessed in any way on the content. It is broken into sections so you can work through areas relevant to your needs or you may choose to complete the entire audit to identify the skills you need to develop further at this level of study. Section 3 will be relevant for all postgraduate students, and you may wish to select section 1 and/or section 2 depending on your previous experience of studying.

Revisit the skills audit in Semester 2 to see how you have developed and where there are still opportunities for learning and development.

Developing your skills is an ongoing process and will continue throughout your degree. Whilst studying at Oxford Brookes, it is recommended that you use this document to review your achievements and identify areas to develop further every 6 months.

# Table of Contents

Section 1 (For postgraduate students new to Brookes)

## My Skills Audit Scores

<a href="#"><u>Brookes Systems</u></a>	My score	If you scored 27 or below, this is an area to be developed.
<a href="#"><u>Reading &amp; Research</u></a>	My score	If you scored 30 or below, this is an area to be developed.
<a href="#"><u>Referencing &amp; Academic Integrity</u></a>	My score	If you scored 18 or below, this is an area to be developed.
<a href="#"><u>Preparing Assignments</u></a>	My score	If you scored 21 or below, this is an area to be developed.
<a href="#"><u>Academic Writing</u></a>	My score	If you scored 12 or below, this is an area to be developed.
<a href="#"><u>Presenting or Participating in Seminars</u></a>	My score	If you scored 21 or below, this is an area to be developed.
<a href="#"><u>Submitting Assignments and Accessing and Responding to Feedback</u></a>	My score	If you scored 21 or below, this is an area to be developed.
<a href="#"><u>Conducting independent research</u></a>	My score	If you scored 21 or below, this is an area to be developed.
<a href="#"><u>Managing a research project</u></a>	My score	If you scored 15 or below, this is an area to be developed.

# Planning My Next Steps

Looking at your answers above, write a brief paragraph outlining your strengths and areas for development. Make a brief action plan to address any areas you would like to develop over the next semester (use the questions to guide your responses):

- What are my goals?
- Why have I prioritised these?
- What is my deadline for achieving them?
- What steps do I need to take?
- How will I know if I have achieved my goals?

Staff comment/ date(s):

## Revisit semester 2: Reflection on learning to date

Look back at the answer you wrote in Semester 1.

- Was your assessment of your skills appropriate?
- Did you have strengths you didn't know you had?
- Did you have any unidentified gaps in your knowledge?
- How did you work to address any areas you weren't confident in?
- What is your SMART action plan for this next semester?

Staff comment/ date(s):

# Guidance for Academic Advisors & Supervisors

You may want to use this document as a springboard for initial discussions with your new advisees and as a way of helping them identify areas where they may be lacking confidence. The form is there for the students to use and keep and you can either make comments yourself, or students can summarise any verbal feedback you give them to refer to later. Ideally the form will be revisited at meetings through the first year as a way of encouraging students to reflect on their learning and continue to take responsibility for their own development.
