

# Week One

## What is University?

At University, many people move away from home and live at the university they've chosen to go to. **Don't worry, you can still visit your family during the holidays!**

Because of that university campuses need to have everything people need to live there for several weeks at a time.

Can you match up the item with the location you might find it on campus? There is a map to help you on the website.

1. Book

2. Spoon and cereal bowl

3. Tennis racket

4. Toothbrush

5. Microscope

6. Student ID card

### IN YOUR OWN TIME:

Write a short piece of writing explaining what you would most look forward to at university.

You could answer:

Why would you like to go?

What subject might you want to study?

When you have finished, we would love to read your work! Send us a picture or a copy on our website
