

Introducing Hollie Guard

Your new personal safety app

www.hollieguard.com

Hollie Guard turns your smartphone into an advanced personal safety device at the touch of a button.

In danger? A simple shake or tap activates Hollie Guard. Your location, along with audio/video evidence, is automatically sent to your emergency contact. A second shake sends out a high pitched alarm and the flash starts to strobe, in order to attract maximum attention.

Works with
iPhone

Available on the Android
App Store

Windows
Phone

Hollie Guard

Safety & Security

Hollie Guard transforms smartphones into personal safety devices. Hollie Guard works on all major operating systems, so no new devices are required.

3 Alarm Profiles

Users can pick the alarm profile appropriate for their situation: stealth, personal, and deterrent.

Journey

Journey ensures safe travel by providing real-time updates as users move between two places.

Meeting

Meetings allow users to identify when they are going to a dangerous meeting. An alert is automatically created.

Danger Zones

Create zones to automatically warn users when they've entered a potentially dangerous area.

About Us

Hollie Guard was developed by the Hollie Gazzard Trust to help people stay safe. The app was created in honour of Hollie. It is the definitive personal safety app fully endorsed by Gloucestershire Police and the Office of the Police and Crime Commissioner Gloucestershire.
